

Environmental Policy Statement of Intent

Metropolitan Electrical Services Limited recognises the need to operate the business in a manner which reflects good environmental management. The Company is also aware of the environmental impacts of its operations and will balance its aims with the need to protect both the local and global environment. We accept and are committed to ensuring compliance with the requirements of The Environmental Protection Act and associated regulations. The company will therefore as a matter of policy work toward pursuing best environmental practices whenever and wherever practicable.

Metropolitan Electrical Services Limited is therefore committed to working towards:

1. Compliance with all relevant environmental legislation and, where practicable, will strive to achieve standards of environmental performance which are better than the legal minimum.
2. Providing the necessary financial and personnel resources to fulfil its environmental policy.
3. Preventing pollution, minimising environmental impacts and developing a culture of continual environmental improvement by establishing a clear set of environmental and targets within the framework of an environmental management system.
4. Developing environmental performance evaluation procedures and periodically reviewing its environmental performance. Furthermore, Metropolitan Electrical Services Limited will incorporate environmental factors into business decisions.
5. Commitment to exploiting environmental opportunities by active resource management (materials, fuel and energy) and waste minimisation. It will endeavour to utilise sustainable materials and products which are reusable or can be recycled. Where necessary, it will ensure that all waste, particularly hazardous waste are tested, transported and disposed of in an environmentally acceptable manner, in accordance with statutory duty of care requirements.
6. Minimising the risks of environmental accidents through the adoption of risk management and waste management procedures and, in conjunction with appropriate authorities, ensuring an emergency response capability to deal with accidental pollution.
7. Encouraging all suppliers and sub-contractors to develop or share environmental policies In line with our company policy.
8. Metropolitan Electrical Services Limited will communicate the Environmental Policy to all company personnel directly or indirectly and will be freely available to anyone. It will also provide the necessary training and support to staff to ensure that they are able to fulfil the commitments of this policy.

This policy will be reviewed and developed periodically to ensure it remains effective and any necessary amendments will be communicated to all employees

Robert Warner (Signed)
